

GUIDE TO SEARCH GI JOURNALS IN IPOS DIGITAL HUB

When a GI application is accepted by the Registry, it will be published in the GI Journal.

You may access <https://digitalhub.ipos.gov.sg> > **Journals** > **Geographical Indications** to download the journal and view the published GIs.

The screenshot shows the IPOS Digital Hub website interface. At the top, there is a navigation bar with 'Forms', 'Search', and 'Journals' (highlighted with a yellow box). A dropdown menu is open under 'Journals', listing 'All', 'Patents Journal A', 'Patents Journal B', 'Trade Marks', 'Registered Designs', 'Geographical Indications' (highlighted with a yellow box), and 'Plant Varieties Protection'. Below the navigation bar, the main content area features a 'Welcome to IPOS Digital Hub' message and a 'Trade Mark' section. The 'Trade Mark' section includes a 'Design' tab and a four-step process: Step 1: Search for similar trade marks; Step 2: Apply for trade mark protection in Singapore; Step 3: Apply for trade mark protection overseas (Optional); Step 4: Renew trade mark. At the bottom, there are search options: 'IP Search', 'Advanced Search', 'Trade Mark Similar Mark Search', and 'Trade Mark Goods and Services Search'.

Journals

General Information

In this Section, users are able to download the eJournals (containing information relating to published Applications) free-of-charge.

- Journals published from 2014 onwards are available for downloading here.
- You can also search for past journal entries via [Journal Search](#).
- If you are unable to find the relevant journal entries, please [contact us](#).
